1. During the period from 1 to 13 October 1950 a daily average of two or three westbound trains composed of 120 boxcars and loaded with hard coal passed through the Forst (O 52/A 77) border crossing point. During the same period an average of six to eight empty trains composed of boxcars and gondola cars passed through Forst headed east. *

- * [redacted] Comment. The westbound traffic passing through the Forst border crossing point continues to be normal. The number of eastbound trains has slightly increased when compared with a daily average of three to six trains previously observed. [redacted]
